Certificate of Approval of Model/ मॉडल का अनुमोदन प्रमाणपत्र

Whereas the Central Government, after considering the report submitted to it by prescribed authority, is satisfied that the model described in the said report (see the figure given below) is in conformity with the provisions of the Legal Metrology Act, 2009 (1 of 2010) and the Legal Metrology (Approval of Models) Rules, 2011 and the said model is likely to maintain its accuracy over periods of sustained use and to render accurate service under varied conditions;

Now, therefore, in exercise of the powers conferred by section 22 of the Legal Metrology Act, 2009 (1 of 2010) read with sub-rule (6) of rule 8 and sub-rule (4) of rule 11 of the Legal Metrology (Approval of Models) Rules, 2011, as per Schedule Seventh of the Legal Metrology (General) Rules, 2011, the Central Government hereby issues the certificate of approval of automatic instrument for weighing road vehicles in motion and measuring axle loads of accuracy class vehicle mass-5, single axle load and group axle load-E of series "DWI-IMRW" and with brand name "DADHWAL" (hereafter in referred to as the said model), manufactured by M/s Dadhwal Ai Private Limited, F-74, Industrial Area Phase-7, SAS Nagar, Mohali-160055, Punjab and which is assigned the approval mark IND/09/24/91 (the picture of the model is given below as Figure

The said model is strain gauge based automatic instrument for weighing road vehicles in motion and measuring axle loads with a maximum capacity of 20tonne/axle and minimum capacity of 500kg. The scale interval (d) is 50kg. Its maximum operating speed is 10km/h and minimum operating speed is 1km/h. The light emitting diode (LED) indicates the weighing result with OTP provision for calibration. The instrument operates on 230Volts, 50Hertz alternating current power supply.

Figure 1

Brand: DADHWAL; Series: DWI-IMRW

Figure 2

Sealing is done by passing the sealing wire through the holes provided on the body of machine. A lead seal is put at the end of the wire for stamping purpose (a typical schematic diagram of sealing provision to prevent the fraudulent practices of the model is given above as Figure 2). A dip switch has also been provided in mother board/PCB to disable access to external calibration.

Further, in exercise of the power conferred by sub-rule (9) of rule 8 of the Legal Metrology (Approval of Models) Rules, 2011, the Central Government hereby declares that this certificate of approval of the said model shall also cover the automatic instruments for weighing road vehicles in motion and measuring axle loads of similar make, accuracy and performance of same series with maximum capacity up to 40 tonne/axle (50tonne/axle for industrial use inside mines) manufactured by the same manufacturer in accordance with the same principle, design and with the same materials with which, the said approved model has been manufactured.
